Clean Water Act

Because transportation facilities and their construction affect water quality, they are subject to provisions of the Clean Water Act. This Act establishes the basic structure for regulating discharges of pollutants into the waters of the United States and regulating quality standards for surface waters.

The U.S. Environmental Protection Agency (EPA) is responsible for enforcing this Act. EPA has delegated this authority within Colorado to the Colorado Department of Public Health and Environment (CDPHE). The Colorado Water Quality Control Act provides the authority needed for this purpose.

Laws: 33 USC 1251 et seq.
CRS 25-8
